Supported by:

HOPE TO MEET YOU IN (H)ANTWERP!

The Belgian Hand Therapists are proud to invite you to the [European Hand Therapy Day](#).

It is not a Eurohand congress but it is supported by the European Federation of Societies for Hand Therapy. This [specific day for hand therapists](#) forms a part of the XVIIth congress of FESSH, with separate subscriptions.

This scientific highlight will take place in [Antwerp, a city in the centre of Europe!](#)

It takes place simultaneously with the XVIIth congress of FESSH at the same location, the “Stadsschouwburg” Antwerp.

Antwerp has a lot to offer. It has a rich “hand culture” and is even symbolised by a Hand. The hand-influence can be seen all around Antwerp, even in the famous Belgian chocolates and beers. Next to “hands” there is much more to see, to experience and to buy in Antwerp, [all at very good prices](#).

Conclusion: Antwerp, a perfect city for you as a hand specialist and for your family.
